

# 2016 MICROWAVE WORKSHOPS & EXHIBITION

MWE 2016

**New World designed by Microwave technologies and Japanese contribution**

Date: November 30 to December 2, 2016

Venue: Pacifico Yokohama, Kanagawa, Japan

URL <http://apmc-mwe.org/mwe2016/>

Admission Free

Organizer: Institute of Electronics, Information and Communication Engineers (IEICE)

Supported by: Ministry of Internal Affairs and Communications, Japan

Cooperatively sponsored by

The Technical Committee on Microwave, Electronics Society, IEICE

IEEE MTT-S Japan, Kansai and Nagoya Chapters

Japan Society of Electromagnetic Wave Energy Applications

The Japan Institute of Electronics Packaging

The Technical Committee on Electronics Simulation Technology, Electronics Society, IEICE

The investigative committee on "Innovative Technologies for Advanced Applications of Electromagnetic-waves" in the Institute of Electrical Engineers of Japan (IEEJ).

## Microwave Exhibition 2016

### Exhibit Profile:

Microwave Exhibition, which has been held every year since 1991, is Japan's largest technology exhibition to support the microwave industry.

6,000 visitors are expected to attend the three-day exhibition.

More than 100 companies exhibit their latest products and services, such as device circuit components, materials, radio application, the substrate to microwave systems, measuring instruments, evaluation systems, EDA, etc.

Also, there is a university exhibition area, where universities and laboratories will present their recent researches.

Furthermore, various technical workshops on microwave technology will be held at the venue on the same days, most of which will be presented in Japanese language.

## The beginners and professionals of microwave technologies are welcome!

Many of the attendees are engineers and researchers from various fields as follows:

- 5G, ITS, IoT, wireless power transmission
- Microwave, millimeter wave and terahertz wave bands, device, circuit, antenna and system
- Measurements, simulation, EMC, new electromagnetic applications

We also have attendees from microwave-related organizations and companies as follows:

- Universities, colleges, and research institutions
- Venture companies looking for new businesses in the microwave industry

We look forward to seeing you at MWE 2016.
