

2019 MICROWAVE WORKSHOPS & EXHIBITION

Microwave Technologies Enabling the Future of IoT Society

Date: November 27 to 29, 2019

Venue: Pacifico Yokohama, Kanagawa, Japan

URL <https://apmc-mwe.org/mwe2019/>

Sponsored by APMC Japan National Committee, Institute of Electronics,
Information and Communication Engineers (IEICE)

Supported by Ministry of Internal Affairs and Communications

Cooperatively sponsored by

IEICE Technical Committee on Microwaves /

IEICE Technical Committee on Electronics Simulation Technology /

IEICE Technical Committee on Antennas and Propagation /

IEEE MTT-S Japan/Kansai/Nagoya Chapters /

Japan Society of Electromagnetic Wave Energy Applications /

Japan Institute of Electronics Packaging

IEEJ Investigating R&D Committee on Cyber Physical Communications for Industries / etc.

Japan's Largest Microwave Exhibition in Yokohama!

2019 Microwave Workshops & Exhibition

Exhibit Profile:

- Japan's largest Microwave Exhibition, which has been held every year since 1991, to support the microwave industry.
- More than 100 companies exhibit their latest products and services, such as device circuit components, materials, radio application, the substrate to microwave systems, measuring instruments, evaluation systems, EDA, etc.
- Over 5,000 visitors are expected to attend the three-day exhibition and workshop.
- There is a university exhibition area, where universities and laboratories will present their recent researches.
- About 30 technical workshops on microwave technology will be held at the venue on the same days, most of which will be presented in Japanese language.

The beginners and professionals of microwave technologies are welcome!

Many of the attendees are engineers and researchers from various fields as follows:

- 5G, IoT, ITS, wireless power transmission
- Microwave, millimeter wave and terahertz wave bands, device, circuit, antenna and system
- Measurements, simulation, EMC, new electromagnetic applications

We also have attendees from microwave-related organizations and companies as follows:

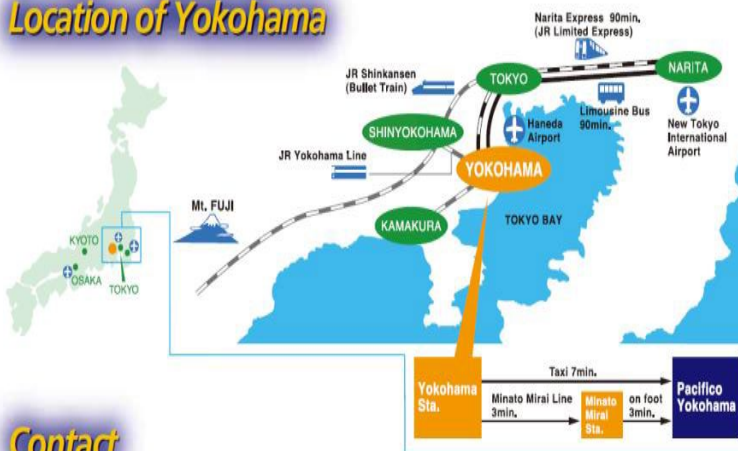

- Universities, colleges, and research institutions
- Venture companies looking for new businesses in the microwave industry

We look forward to seeing you at MWE 2019.
